# SERIES: VDRS-10 | DESCRIPTION: AC-DC DIN RAIL

#### **FEATURES**

- up to 10 W continuous power
- DIN Rail power supplies
- universal input (88-264 Vac / 124-370 Vdc)
- single output from 12 to 24 V
- over voltage, over load, over temperature, and short circuit protections
- UL1310, UL 508, and TUV safety approvals
- long life electrolytic capacitors
- efficiency 81%

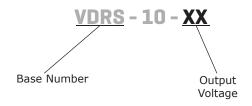

| MODEL      | output<br>voltage | output<br>current | output<br>power | ripple<br>and noise¹  | efficiency |
|------------|-------------------|-------------------|-----------------|-----------------------|------------|
|            | (Vdc)             | max<br>(A)        | max<br>(W)      | <b>max</b><br>(mVp-p) | (%)        |
| VDRS-10-12 | 12                | 0.84              | 10              | 100                   | 81         |
| VDRS-10-15 | 15                | 0.67              | 10              | 100                   | 81         |
| VDRS-10-24 | 24                | 0.42              | 10              | 120                   | 81         |

Note:

## **PART NUMBER KEY**

<sup>1.</sup> at full load, 230 Vac input, measured at 20MHz bandwidth with a 47  $\mu F$  and 0.1  $\mu F$  parallel cap on the output

# **INPUT**

| parameter      | conditions/description | min       | typ | max          | units      |
|----------------|------------------------|-----------|-----|--------------|------------|
| voltage        |                        | 88<br>124 |     | 264<br>370   | Vac<br>Vdc |
| frequency      |                        | 47        |     | 63           | Hz         |
| current        | 115 Vac<br>230 Vac     |           |     | 0.23<br>0.17 | A<br>A     |
| inrush current | 115 Vac<br>230 Vac     |           |     | 15<br>30     | A<br>A     |

# **OUTPUT**

| parameter               | conditions/description            | min | typ   | max | units |
|-------------------------|-----------------------------------|-----|-------|-----|-------|
| line regulation         |                                   |     |       | ±1  | %     |
| load regulation         |                                   |     |       | ±1  | %     |
| temperature coefficient | (0 ~ 50°C)                        |     | ±0.03 |     | %/°C  |
| hold-up time            | at 115 Vac, cold start            | 16  |       |     | ms    |
|                         | at 230 Vac, cold start            | 32  |       |     | ms    |
| adjustability           | adjustable with built-in trim pot |     |       | ±10 | %     |

# **PROTECTIONS**

| parameter                | conditions/description                                                             | min | typ | max | units |
|--------------------------|------------------------------------------------------------------------------------|-----|-----|-----|-------|
| over voltage protection  | latch-off mode                                                                     | 115 |     | 150 | %     |
| over load protection     | constant current limiting, automatically recovers after fault condition is removed | 102 |     |     | %     |
| short circuit protection | output shut down and auto restart                                                  |     |     |     |       |

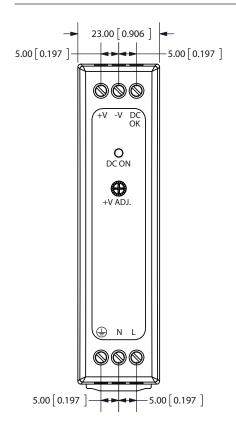

# **SAFETY & COMPLIANCE**

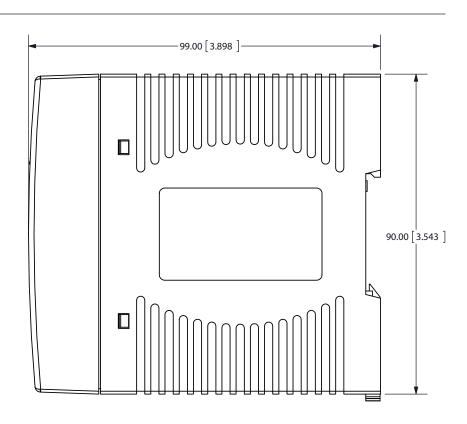

| parameter            | conditions/description                                                                                                                                          | min     | typ | max            | units      |
|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|-----|----------------|------------|
| isolation voltage    | input to output for 1 minute input to case for 1 minute                                                                                                         |         |     | 3,000<br>1,500 | Vac<br>Vac |
| isolation resistance | input to output, input to case, output to case, 500 Vdc                                                                                                         | 100     |     |                | ΜΩ         |
| safety approvals     | UL 508, TUV EN60950-1, UL1310 NEC class 2 compliant                                                                                                             |         |     |                |            |
| EMI/EMC              | EN55022: 2006(Class B), EN61204-3: 2000,<br>EN61000-6-3: 2007, EN61000-3-2,3:2006,<br>EN55024, EN61204-3: 2000, EN61000-6-1: 2007<br>(EN61000-4-2,3,4,5,6,8,11) |         |     |                |            |
| leakage current      |                                                                                                                                                                 |         |     | 1              | mA         |
| RoHS compliant       | yes                                                                                                                                                             |         |     |                |            |
| MTBF                 |                                                                                                                                                                 | 120,400 |     |                | hours      |

# **ENVIRONMENTAL**

| parameter             | conditions/description                             | min | typ | max | units |
|-----------------------|----------------------------------------------------|-----|-----|-----|-------|
| operating temperature |                                                    | -20 |     | 70  | °C    |
| storage temperature   |                                                    | -40 |     | 85  | °C    |
| operating humidity    | non-condensing                                     | 20  |     | 90  | %     |
| storage humidity      |                                                    | 10  |     | 95  | %     |
| vibration             | (10 $\sim$ 500 Hz, 1 hour per axis, 3 hours total) |     | 5   |     | Grms  |
